

Double-ended open-jaw spanners, metric

10

Art.No. **40030405**
GTIN **4018754017690**
Model **10 4 X 5**

Label.

Double-ended open-jaw spanners size 4 x 5mm L.100mm

Features.

- straight design, jaw position 15°
- stable, slim and light intelligent design
- high bending strength due to double T-profile
- grip, skin-friendly surface due to STAHLWILLE round finish
- extremely resilient, exceptionally durable
- die-forged, hardened and cooled in an oil bath
- Chrome Alloy Steel, chrome-plated
- DIN 3110, ISO 10102

Advantages.

The use of high-quality special steel and an elaborate forging process make the double open-end wrench durable and robust

Particularly low manufacturing tolerances guarantee that the jaw always sits securely on the screw

Sturdy tool with top quality for the professional user,
DIN 3110, ISO 10102 – Made in Germany

The use of high-quality special steel and an elaborate forging process make the double open-end wrench durable and robust

Ideal for a wide range of car, bicycle, motorcycle, and industrial jobs

Product highlights.

Double T-profile.

The double T-profile used for the STAHLWILLE open-jaw and ring spanners saves material where it is not needed and guarantees two things at once: peak dimensional stability and extremely low weight, whichever spanner size you pick up. As a result, tool-kits from STAHLWILLE weigh considerably less. But that is not all: the double T-profile from STAHLWILLE fits snugly in the hand, allows fatigue-free working and can be gripped comfortably and safely. This also increases user safety.

More robust.

When force is applied to a spanner, the greatest force acts on the area between the jaw and the shank, which is why STAHLWILLE spanners are reinforced at this point. The special design makes the load zones more resilient, which reduces the risk of breakage to a minimum.

More Choice.

As one of only a few manufacturers, STAHLWILLE offers a comprehensively diverse range of metric, imperial, spline drive and TORX® spanners.

More Accurate.

Our very tight manufacturing tolerances and reproducible dimensional accuracy ensure that one STAHLWILLE spanner is as close-fitting as the next. In this way, both open-jaw and ring spanners will always firmly hug the fastener head – for excellent power-lock.
