

Combination spanner OPEN BOX, inch 13a

Art.No. **40481212**
GTIN **4018754020058**
Model **13 A 3/16**

Label. Combination spanner OPEN BOX size 3/16" L.95mm

Features.

- Chrome Alloy Steel, chrome plated

Advantages.

Made in Germany – STAHLWILLE Combination spanner OPEN BOX, inch 3/16", open end 15° angled, length 95 mm, DIN 3113 Form A, , 40481212

Extremely resilient and durable – stronger than any screw

Robust Chrome-Alloy-Steel gives the combination spanner high durability and wear resistance.

Special manufacturing process allows for thin-walled rings – perfect for screwing in hard-to-reach places

High-quality, non-slip surface texture – for safe working even with oily hands

Product highlights.

More robust.

When force is applied to a spanner, the greatest force acts on the area between the jaw and the shank, which is why STAHLWILLE spanners are reinforced at this point. The special design makes the load zones more resilient, which reduces the risk of breakage to a minimum.

More Choice.

As one of only a few manufacturers, STAHLWILLE offers a comprehensively diverse range of metric, imperial, spline drive and TORX® spanners.

Slimmer.

Extremely thin-walled rings facilitate work in confined spaces. In addition, the rings are higher than standard nuts – which prevents the spanner seizing on the nut.

More Accurate.

Our very tight manufacturing tolerances and reproducible dimensional accuracy ensure that one STAHLWILLE spanner is as close-fitting as the next. In this way, both open-jaw and ring spanners will always firmly hug the fastener head – for excellent power-lock.

Technologies and features.

High Performance Quality (HPQ®)

High-performance steel, extremely resilient, yet thin-walled and ideal for working in confined spaces.
