

**EVERYTHING. YOU. NEED.**  
THE AGRI TOOL SET

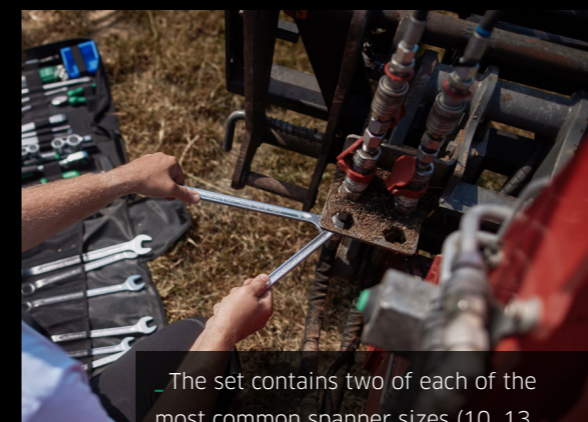

# THE RIGHT TOOL DOESN'T TAKE UP A LOT OF SPACE.

The selection is based on the experience of farmers and farm machinery mechatronics specialists from the field - experts who know exactly what really counts. Because if the worst were to happen, things need to move fast - and you need to have the right tools to hand!

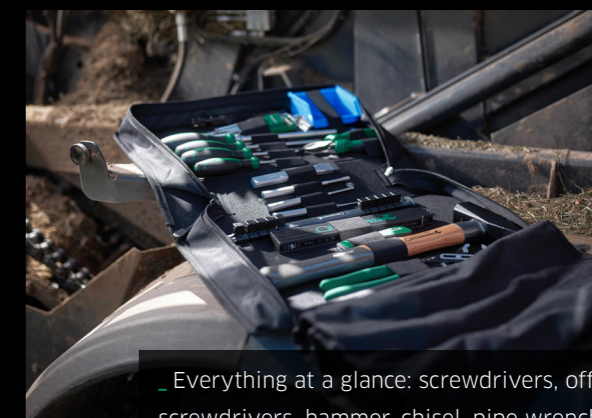

For me, the STAHLWILLE tool set has become a constant companion both on the machine and on the farm.

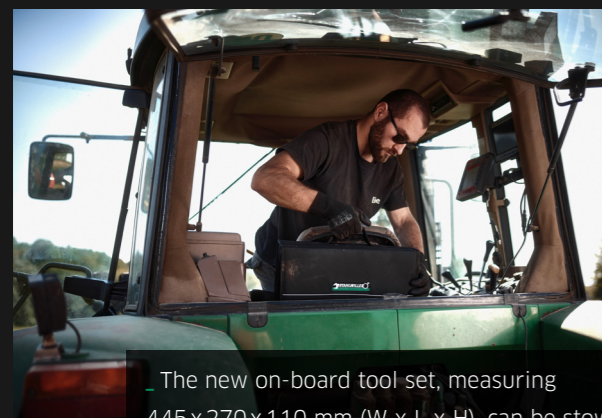

Michael Plate, farmer

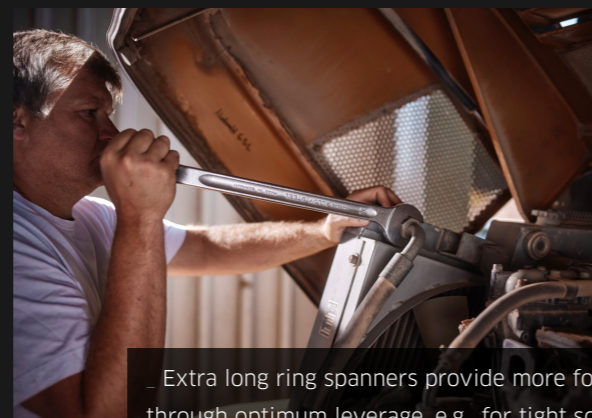

The set contains two of each of the most common spanner sizes (10, 13, 17, 19, 22, 24 and 27 mm), enabling tightening of bolted joints.

Everything at a glance: screwdrivers, offset screwdrivers, hammer, chisel, pipe wrench, side cutter, folding ruler, ring spanners, pin punches, magnetic torch, and a pocket knife.

The new on-board tool set, measuring 445x270x110 mm (W x L x H), can be stowed behind or to the side of the driver's seat to save space, so it is always within easy reach.

Extra long ring spanners provide more force through optimum leverage, e.g., for tight screw joints

The practical and hard-wearing case is tough and particularly durable.

The set includes the tools required for minor repairs to tractors, trailers, and farm machinery.

The accompanying Agrar storage box can be used for storing screws or other small items.

An optional expansion set can be integrated directly into the existing tool case (see last page).

# THE PERFECT ADDITION.

For even more convenience when working, the Agrar on-board tool set can be expanded with an additional set of 10 tools.

The set can be easily integrated into the existing tool case. Only the pipe wrench needs to be replaced.
