Advantages.

For Hi-Lok bolts

STAHLWILLE: For over 160 years, we as a traditional German company from Wuppertal have stood for tools that are appreciated around the world for their excellent quality

Product highlights.

Hi-Lok

HI-LOK countersunk rivets are very popular in the aerospace industry - because they enable reliable connections to be made even in safety-critical, confined environments. With our patented STAHLWILLE HI-LOK ratchet, the hex key merely pushes the ball lock aside. As soon as the hex key is removed, it slides back into place. The ratchet is FOD-safe.

Technologies and features.

Tool Control System

Safety-conscious inlays - designed to fit our Tool Trolleys and Tool Boxes. With yellow signal cut-outs to show whether all the tools are in their places.
