Advantages.

With the Tool Control System, the tools fit into chemical-resistant safety foam inserts with high-precision, 3-D cutouts

The 72-tooth ratchet allows a working angle of only 5° - for efficient work even in the tightest spaces.

The distinctive STAHLWILLE round finish gives the ratchet ring open-end spanner a non-slip and pleasant feel for safe working, even with oil-smearred hands.

The practical safety insert system is an intelligent storage solution for tool trolleys and workshop trolleys.

The ring side has a flat design with double hexagon and a jaw position of 15° for working even in hard-to-reach places.

Technologies and features.

Double T-profile

The double T-profile of the STAHLWILLE open-ended and ring spanners has a recess in the middle of the shaft. This reduces the weight of the tool and ensures safe handling. The spanners provide exceptional grip and facilitates reduced work fatigue.

Tool Control System

Safety-conscious inlays - designed to fit our Tool Trolleys and Tool Boxes. With yellow signal cut-outs to show whether all the tools are in their places.
