Advantages.

Made in Germany – STAHLWILLE Combination spanner OPEN BOX, metric, long 6 mm, open end 15 °angled, length 125 mm, DIN 3113 Form B, , 40100606

Special manufacturing process allows for thin-walled rings – perfect for screwing in hard-to-reach places

Extremely resilient and durable – stronger than any screw

High-quality, non-slip surface texture – for safe working even with oily hands

Robust Chrome-Alloy-Steel gives the combination spanner high durability and wear resistance.

Product highlights.

More robust.

When force is applied to a spanner, the greatest force acts on the area between the jaw and the shank, which is why STAHLWILLE spanners are reinforced at this point. The special design makes the load zones more resilient, which reduces the risk of breakage to a minimum.

Slimmer.

Extremely thin-walled rings facilitate work in confined spaces. In addition, the rings are higher than standard nuts – which prevents the spanner seizing on the nut.
