## Advantages.

With the Tool Control System, the tools fit into chemical-resistant safety foam inserts with high-precision, 3-D cutouts

The 72-tooth ratchet allows a working angle of only 5° - for efficient work even in the tightest spaces.

The distinctive STAHLWILLE round finish gives the ratchet ring open-end spanner a non-slip and pleasant feel for safe working, even with oil-smearred hands.

The practical safety insert system is an intelligent storage solution for tool trolleys and workshop trolleys.

The ring side has a flat design with double hexagon and a jaw position of 15° for working even in hard-to-reach places.

## Technologies and features.

#### Double T-profile

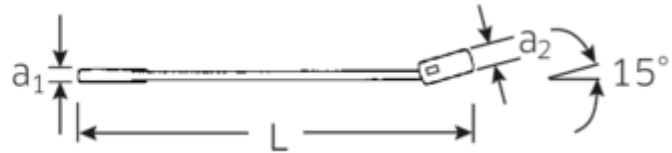

The double T-profile of the STAHLWILLE open-ended and ring spanners has a recess in the middle of the shaft. This reduces the weight of the tool and ensures safe handling. The spanners provide exceptional grip and facilitates reduced work fatigue.

### Tool Control System

Safety-conscious inlays - designed to fit our Tool Trolleys and Tool Boxes. With yellow signal cut-outs to show whether all the tools are in their places.
