Model 2309 K 17

**Label.** Wheel nut socket 1/2 " 17mm L.86mm

**Features.**

- 1/2" #a;-drive
- with plastic sleeve
- sleeve extension protects not only wheel bolts and nuts but also the wheel and holes

## Advantages.

1/2" inner square drive.

## Product highlights.

### Resilient.

IMPACT sockets are made from high-grade chrome alloy steel. They are hardened in an oil bath to ensure they are normalised and non-warping, making them extremely accurate tools with very close tolerances.

### Gentle.

The special IMPACT sockets with the plastic sleeve enable quick wheel changes while protecting sensitive light alloy rims.

### Optimized functionality.

All IMPACT sockets have a straight-through central bore for the locking pin and a deep groove for the O-ring to improve grip. The locking pin is not under load during use.

### High fitting accuracy.

The remarkable fitting accuracy, which is due to very tight tolerances, guarantees minimum loss of force as the impact is transferred from the impact screwdriver to the socket insert and also guarantees dramatically improved durability.
