Combination ratcheting spanner Spanner size nullmm L.190mm

Product highlights.

Integrated ratchet.

Our combination ratcheting spanners have an integrated fine-toothed ratchet. You do not need to change your grip or remove and reattach the tool multiple times. The bolt can be tightened quickly and efficiently without stopping, as when using a ratchet.

Excellent workmanship.

The spanner is made from high-quality forged chrome alloy steel, giving it outstanding robustness and durability, even in continuous and prolonged use. It also has a corrosion-resistant chrome-plated finish.

Non-slip surface.

The STAHLWILLE spanners have a high-quality surface structure with a good grip, which even allows you to work safely and securely with oily hands. The non-slip property increases handling control.

In every way.

Our combination ratcheting spanners are available in different versions (metric, imperial, angled, flat) and also as sets in roll-up pouches or TCS inserts.
