## Advantages.

The non-slip finish makes for an ergonomic wrench that feels comfortable in your hand.

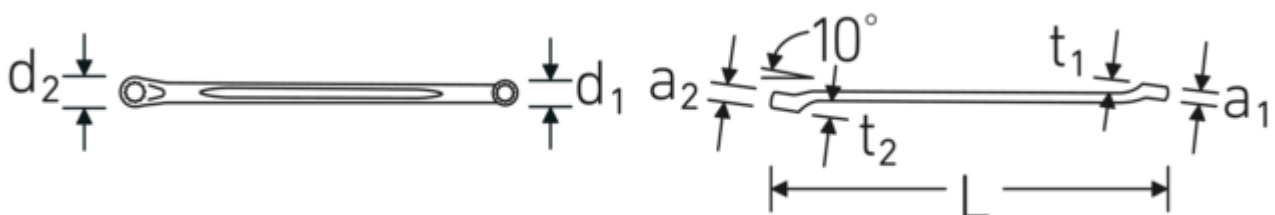

Extremely thin-walled rings make it possible to work in hard-to-reach places on machines, cars, bicycles, etc.

Particularly low manufacturing tolerances ensure that the ring always sits securely on the screw.

The use of high-quality special steel and an elaborate forging process make the double ended ring spanner durable and robust.

The special AS drive profile makes high force transmission to the edges of screws and bolts possible without damaging them
