The non-slip finish makes for an ergonomic wrench that feels comfortable in your hand

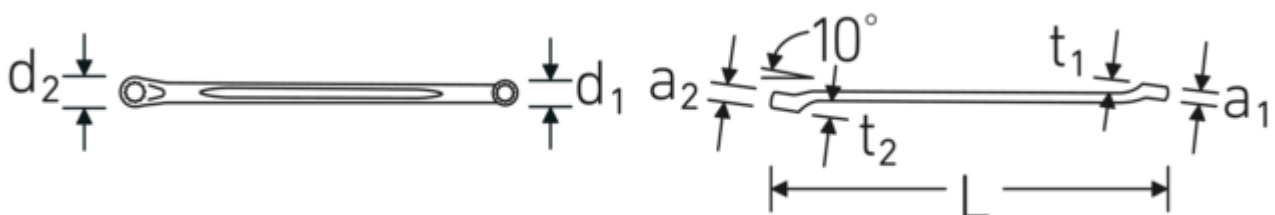

Extremely thin-walled rings make it possible to work in hard-to-reach places on machines, cars, bicycles, etc.

Particularly low manufacturing tolerances ensure that the ring always sits securely on the screw

The use of high-quality special steel and an elaborate forging process make the double ended ring spanner durable and robust

The special AS drive profile enables high force transmission to the sides of nuts and bolts without damaging them
