Advantages.

Reduced blade diameter: for reaching and operating low-lying screw connections or screws, e.g. in switch cabinets/switchgear.

Roll-off protection on the handle prevents unwanted rolling away from the workplace.

Flush finish with the blade tip thanks to integrated protective insulation: saves valuable space and allows optimum access even in the tightest installation spaces.

With the Tool Control System, the tools lie in chemical-resistant safety foam inserts with high-precision, three-dimensional cut-outs.
