Features. •

Advantages.

High-quality combination spanner set with metric, identical spanner sizes.

Slim, thin-walled rings are ideal for fastening screws in hard-to-reach places.

Strong Chrome-Alloy-Steel gives the combination spanner high durability and wear resistance.

The 15° offset ring side makes it easy to work on flat surfaces.

The striking STAHLOWILLE round finish gives the combination spanners a pleasant, non-slip feel for safe working, even with oil-smearred hands.

Technologies and features.

Double T-profile

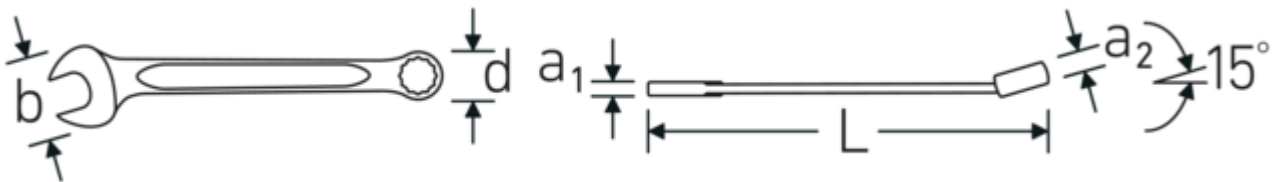

Offset Shaft Design

Anti-Slip-Drive

The AS-Drive® profile enables high force transmission without damaging the fasteners. While the force acts on the flats of the screws, the corners are left free and are not rounded off.
